DEADLOCK IN CONTROVERSY OVER RELIEF

Prime Minister Denies Dominant Responsibility for Vancouver's Troubles

McGEER DECLARES SITUATION DESPERATE

VANCOUVER, May 21 (CP).—Three-way governmental intransigence that responsibility for striking relief camp workers now in Vancouver rests elsewhere left the situation deadlocked today, as an estimated 2,000 men remained here without food or shelter.

Prime Minister R. B. Bennett has stated that care of the men is not a Dominion responsibility, and that his Government will take no action toward relieving the situation until it receives a request from the British Columbia Government for such assistance.

Mayor G. G. McGeer has replied that the situation is desperate and "we cannot hold the situation any further without resorting to force."

REMAINS ALOOF
Premier T. D. Pattullo, meanwhile, remained aloof from the telegraphic exchanges between the city of Vancouver and Dominion Government. He refused to comment on the situation other than to reiterate his statement that responsibility for the relief workers rests with the Dominion.

The strikers themselves were apparently waiting for some definite move on the part of the authorities. They have taken no action on Mayor McGeer's proposal that they return to the camps, leaving a delegation here to negotiate for changes in camp conditions and administration as they demand. The men have been on strike since April 4. They have existed since on funds publicly subscribed with the exception of two days' relief granted them over last week-end by the city.

READY AND WILLING
OTTAWA, May 21 (CP).—The Dominion Government is ready and willing to discuss the Vancouver relief strike situation with the British.

VETERAN TRAIN CONDUCTOR DIES

W. R. "Pat" Fletcher Succumbs Suddenly at Nanaimo—Was Born Here

William R. "Pat" Fletcher, aged fifty-four years, for thirty-five years an employee of the Equimait & Nanaimo Railway, died suddenly last night in Nanaimo General Hospital from a sudden attack of pneumonia. He resided at 902 Heywood Avenue, Victoria.

Mr. Fletcher, who for the past twenty years had served on the E. & N. road as conductor of the passenger train, was born in Victoria and educated at local public schools. He was a keen sportsman, being particularly interested in fishing. Possessed of a genial and kindly disposition, he was known to a wide circle of friends and acquaintances, and will be widely mourned.

CONDUCTOR FOR YEARS

Mr. Fletcher entered the service of the E. & N. Railway immediately on leaving school. He had remained with the road until his death. He was one of the oldest passenger conductors on the railway. Mr. Fletcher saw service in all departments of the road.

He was a member of the Masonic order.

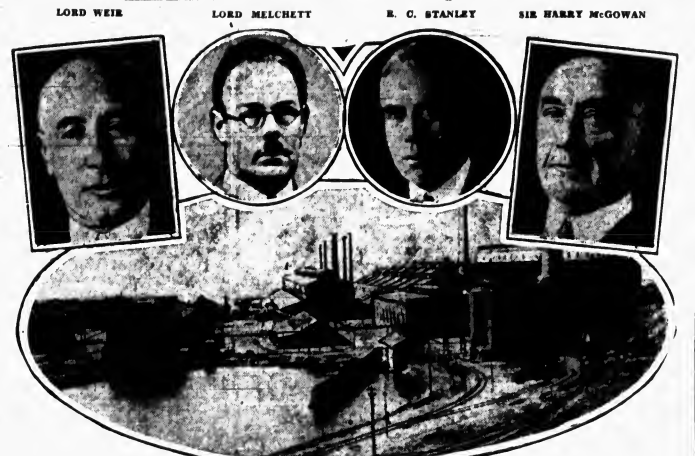

He is survived by his widow, two daughters, Misses Marie and Leonore; four sons, Roy, Gordon, Edward, and William, of The Colonist editorial staff, all at home, and three brothers, George A. Fletcher, Nanaimo; James H. Fletcher, Victoria; and Thomas C. Fletcher, of Vancouver. He was the third son of the late T. W. Fletcher.

Funeral services will be announced later. The remains will be forwarded to this city for burial.

FLYING CAVALIER LANDS IN BRAZIL

RIO DE JANEIRO, May 21 (AP).—Juan Ignacio Pombal, twenty-one, Spain's flying cavalier, became the youngest aviator ever to span the Atlantic today, when he soared to a stop at Natal, Brazil, after a 16-hour 50-minute flight, from Africa. Carrying in his breast pocket a note of his childhood sweetheart in Mexico, D.F., whom he is en route to see, he left Bathurst, Gambia, West Africa, last night. He landed at Natal at 3:10 p.m., almost realizing his prediction he would span the South Atlantic in fifteen hours.

Move Afoot to Ban Export of Nickel

Canada mines and exports 90 per cent of the world's nickel. Nickel is used in manufacture of armaments, both projectiles and armour plate. Thus International Nickel Company comes under censure of noted peace advocates, who would have Canada place a ban on export of nickel. Meanwhile, R. C. Stanley, president of International Nickel, and Lord Melchett, Lord Weir and Sir Harry McGowan, directors of Mond Nickel, parent company in England, deny International Nickel is fostering war. International Nickel plant at Coppercliff, Ont., is shown above.

ARRANGEMENTS have been made for daily publication in The Colonist of "New York Day by Day" written by O. O. McIntyre, regarded as the leading columnist on the continent. His comment on every day life, on the doings of celebrities, and the homely actions of those unknown to fame, and his own humorous philosophy have given him a reading public estimated at more than 20,000,000 persons.

The Colonist, in arrangement with the McNaught Syndicate Inc., of New York, will present O. O. McIntyre to the public of Victoria and Vancouver Island tomorrow, when his first contribution to this paper will appear.

Denies Receiving Any Warning of Coming Invasion

Chinese National Government Claims to Be Quite Capable of Handling Banditry in Demilitarized Zone—Japanese Reported Moving Troops Across Great Wall and Assembling Planes

NANKING, May 21 (AP).—China's National Government, through its foreign office, today vigorously denied receiving any warning that Japan intends to invade the North China demilitarized zone.

A spokesman commenting on the statement attributed to the Japanese military attack at Shanghai that the Japanese had warned the Chinese of impending military occupation of the zone, to end alleged bandit activities, said "The alleged warning was never given."

MOVING SOUTHWARD

While reports from cities near the Great Wall said Japanese troops were moving southward from Jehol Province, Manchukuo, while military planes were massed at the wall, National Government authorities at Peiping told Japanese officials China was quite able to take care of banditry in the area.

(At Shanghai, Chinese military authorities said the demilitarized zone south of the Great Wall, established in the Tanhu truce of 1923 that ended Japan's push toward Peiping, was defended only by 6,000 to 9,000 special Chinese police, widely scattered and incapable of any serious resistance.)

Halfway through the clerk apparently realized his mistake. He read the remainder in a voice scarcely audible. The Duke announced, at the express wish of the King, that those attending should sit during the main part of the address "as there were many grown old in the service of the church who would find it a strain to remain standing."

Announcement of Augmentation of British Defence Plans Expected Today

BALDWIN'S PLEDGE TO BE IMPLEMENTED

LONDON, May 21 (CP).—Announcement that Great Britain's first-line fighting strength in the air will have to be doubled is expected to be made in Parliament tomorrow when Britain replies to Adolf Hitler.

Stanley Baldwin in the House of Commons and Lord Londonderry in the House of Lords will make the simultaneous declarations of British defence policy.

Besides doubling the strength of the R.A.F., the declaration, it is expected, will call for completion within two years of the former five-year programme of air force expansion.

LARGEST EXPANSION
This will represent in the air the largest single expansion of any section of the British fighting forces ever made in peace time.

At the same time the British ministers would be only too glad to welcome some indication from Hitler of German willingness to join in effective limitation of armaments.

They will emphasize that their air-plans are no panic measures; that they are in no sense a form of challenge to Germany.

Two facts dominate the situation: Germany's claim to first-line parity with France and Baldwin's pledge to the House of Commons that the British air strength will equal that of any country within striking distance of her shores.

It is this latter pledge which tomorrow's announcement will seek to implement, in the light of revelations in regard to German air strength.

DEATH REMOVES SOCIAL WORKER

Jane Addams Passes Away After Undergoing Major Operation at Chicago

CHICAGO, May 21 (AP).—Jane Addams, internationally known social worker and champion of world peace, died late today in Passavant Hospital, where she had undergone a major operation.

Miss Addams, founder of the famous Chicago Social Settlement, Hull House, and a Nobel Prize winner for her peace efforts, would have been seventy-five years old on September 6.

She was ordered to hospital on Saturday, when her physician, Dr. James A. Britton, decided an immediate operation was necessary to relieve abdominal adhesions.

While her operation was in progress, she came through in fairly good condition. Early today, however, she took a turn for the worse. An hour later she lapsed into unconsciousness. She died at 5:18 p.m. (C.S.T.).

VOTE TO END MINE STRIKE

Bralorne, Pioneer and Bradian Workers Unanimous for Immediate Return

GOLDBRIDGE, B.C., May 21 (CP).—Employees of Bralorne, Pioneer and Bradian mines voted unanimously today to return to work immediately. The men had been on strike since May 5, but the central committee last night decided to recommend that the miners accept the proposed wage scale providing increases ranging from 50 to 75 cents per day.

NEW WAGE SCALE
The wage scale arranged by Hon. G. S. Pearson, Minister of Mines and Labor, provided \$5.40 per day for miners, \$4.50 for muckers, and a minimum of \$4.00 for outside labor.

Before the strike, miners were paid \$4.75, muckers \$4.00, and the minimum for outside labor was \$3.25. The miners had demanded a general increase of \$1.00 per day per man.

Some 600 miners are affected by today's vote. Employees of several other mines, however, remain in dispute with their companies. These miners are non-dividend payers and company officials contend they cannot afford to meet the new wage scale.

COMPANIES' OFFER
Purves Ritchie, managing director of Wayside Consolidated Gold Mines, Ltd., stated the companies have offered a wage scale of \$5.00 for miners \$4.50 for muckers, and \$3.75 for surface men.

The non-dividend paying mines affected are Wayside, Congress, Olympic, Minto, Grange, B.R.X., B.R. Consolidated and Pilot. The central committee, which decided last night to recommend that Bralorne, Pioneer and Bradian mines employees return to work at the government-proposed scale, also issued a statement that if Wayside and Congress attempted to resume at lower scales, such a move would be resisted.

WILL ADJUST INEQUALITIES

Legislation Planned to Answer Complaints Against Currency Dump Duties

OTTAWA, May 21 (CP).—Legislation designed to adjust inequalities arising from application of the currency dump against imports from countries which have a high cost of living because of depreciated currency, such as had recently been the subject of protests from Japan, was introduced by Prime Minister R. B. Bennett in the House of Commons today.

Other measures which he said would be laid before the House shortly included seven or eight bills arising from the report of the mass buying commission, and a housing bill.

BARRIER TO TRADE
Of particular interest was Mr. Bennett's reference to the exchange measure dealing with complaints raised by Japan that the currency dump in Canada constituted a barrier to trade already much overbalanced in favor of Canada, and with similar conditions that might affect other countries.

This bill, the Prime Minister said, "will confer upon the Government power to deal with the problem of what are called clearing house agreements and the purchase of commodities through the use of exchange arising from the sale in our markets of commodities of other countries."

THOUSAND TO GET WORK ON HIGHWAY
CALGARY, May 21 (CP).—One thousand men from the ranks of married men on relief will be given employment on the Lake Louise-Jasper Highway, starting June 1. Mayor Andrew Davidson was advised today.

Four hundred and fifty will be recruited from Calgary, 400 from Edmonton and about 150 from Lethbridge.

DOLLAR-CHAINS UNDER ATTACK

Robbers Uproot Los Angeles Mail Box Stealing Money-Laden Letters

LOS ANGELES, May 21 (AP).—Dollar-chains, the newest and most hysterical will-o-the-wisp of low finance, tonight were attacked by Federal, county and city authorities in a prohibitive drive that assumed the proportions of a major crime campaign.

Latest developments in the drive were:

1 Search for robbers who uprooted a mail box from its cement base near a chain-linker office and were believed to have rifled it of about \$8,000 enclosed in letters.

2 Riot talk to Hollywood and Pasadena offices, in which police quelled crowds of disgruntled "investors" demanding their money back.

TO CLOSE OFFERS
3 Announcement by Chief of Police James Davis that "we will close every chain letter office in the city before dawn."

4 Wholesale arrests in several county communities.

5 Establishment of a drag-net to apprehend one man, believed by police to be the instigator and organizer of the whole scheme.

The stolen mail box was taken from a corner in the heart of the downtown district, in the early hours of the morning, detectives said.

High Gold Output Spurs B.C. Mining In First Quarter

Approximately \$2,800,000 Is Value of Gold Mined During First Three Months, With Production at 79,423 Fine Ounces

WITH gold leading development, British Columbia mineral production moved steadily ahead in the first quarter of this year, according to reports in the hands of officials of the British Columbia Mines Department yesterday. A total of 79,423 fine ounces of gold were mined within the Province between January and March, inclusively, with a value of \$2,790,130 or \$656,920 more than in the corresponding period last year. Some progress was also made in silver and base metal groups.

Gold production by month, with value in a like period in 1934, the corresponding figures for last year in brackets following, was as follows: January, 25,762 ounces (\$701,716); February, 25,642 (\$71,894); March, 28,019 (\$2,776). Totaling 79,423 ounces, compared with 61,886 ounces in the first quarter last year.

The average value received by producers for the first quarter this year was \$35.13 per fine ounce, which compared with \$24.47, the average

Hitler Announces Germany's Foreign Policy at Special Meeting of Reichstag—Says Nation Has No Intention of Arming to Skies and Is Willing to Agree to Arms Limitation

States Size of Naval, Air And Military Forces Needed

BERLIN, May 21 (CP-Havas).—Following are the thirteen points of Chancellor Adolf Hitler's momentous declaration of foreign policy delivered before the Reichstag today:

1. Germany rejects the League resolution condemning Reich rearmament.
2. Germany will not adhere to such sections of the Peace Treaty as affect her and have been broken by the other Powers.
3. Germany will sign no treaties which cannot be carried out, but will respect all obligations resulting from Locarno as long as the other signatories do.
4. Germany is ready to participate in a collective security system but demands treaty revision.

5. The Reich holds that European co-operation must be achieved through unanimity and not by imposing maximum demands.

6. Germany is ready to conclude non-aggression treaties with its neighbors and to add clauses for the isolation of all belligerents.

7. Germany is ready to conclude an "air Locarno" to complement the Locarno Treaty.

8. Germany will adhere to the figures announced for its land forces but accepts air limitation. It wants a fleet 35 per cent of Great Britain's and 15 per cent inferior to the French fleet a minimum army of 500,000 men and an air force limited to equality with Europe's largest.

9. The Reich is ready to participate in all efforts limiting armaments.

10. Germany favors suppression of air bombing outside the zone of battle and suppression of heavy artillery and tank warfare.

ALL TO SERVE IN FATHERLAND

German Government Issues New Conscription Law Effective at Once

BERLIN, May 21 (AP).—The Government issued a law tonight compelling all Germans between the ages of eighteen and forty-five to serve on year in the army. It is effective at once.

Persons over forty-five will form reserves and "during war every German man and woman will be obliged to serve the Fatherland," the decree said.

While the Government did not divulge the exact size of Germany's army under the recent conscription law it was said it would consist of thirty-six divisions. The strength of a division was not stated.

NOT TO MILLIONS

"This new law," the Propaganda Ministry asserted, "does not mean Germany's army will swell to millions. The Minister of Defense will enlist persons so far as there are vacancies. The often-mentioned figure of from 550,000 to 600,000 is about average."

One year of labor service is a pre-requisite for military service, but young Germans will not be called to arms before the age of twenty.

Germans with foreign citizenship in addition to their German citizenship must serve in Germany, even if they have had military training in a foreign army.

Germans living abroad must serve their terms in the Reich. The beginning of their period can be postponed for two years and only in very important cases will exceptions be made.

PROMISE BRINGS CHEER IN LONDON

Hitler's Statement Regarded as His Most Important Contribution to European Peace

LONDON, May 21 (AP).—Adolf Hitler's promise before the Reichstag today that Germany, far from tearing up the rest of the Versailles Treaty, would respect its territorial clauses, was described in authoritative British quarters tonight as his most important contribution to the peace of Europe.

Almost equally important in the official British view was his declaration of loyalty to the Locarno Treaty, which binds Germany, France, Italy, Belgium and Great Britain to preserve boundaries in Western Europe.

Lawrence of Arabia Laid to Rest With Dignified Simplicity

Glamorous Great War Hero Buried as He Wished in Quiet English Village—Death Found Accidental by Coroner's Jury

WOOL, Dorsetshire, Eng., May 21 (AP).—Col. T. E. Lawrence, the glamorous figure of Arabia and the Great War, was buried today in a grave unmarked by wreath or stone.

In the Dorset moors, far from the scene of his desert triumphs, Lawrence, victim of a motorcycle accident, was buried with simple rites in the little burial plot at the village of Moreton.

Tears welled in the eyes of a few of the mourners as the plain coffin was lowered into the grave. Winston Churchill, war-time minister of munitions, made no effort to conceal his emotions.

NO EULOGY

There were no words of praise spoken at the burial of the forty-six-year-old man. The funeral had become a saga of heroism while he yet lived.

There was a seventeen-minute service in the tiny church at Moreton, which seats but 170 persons. Then the casket was borne to a four-wheeled handcart, upon which

the body of "Lawrence of Arabia" made the last journey.

A coroner's jury decided that Lawrence, who was fatally injured on May 13, met his end accidentally. Corporal Ernest Catchpole testified that he saw Lawrence swerve his motorcycle to avoid hitting an automobile, and collide then with a butcher boy's bicycle. The witness said Lawrence was moving at a speed of between fifty and sixty miles an hour when he struck the bicycle.

A boy, who had been a companion of the butcher boy, testified he did not see the automobile described by the soldier.

MEDICAL OPINION

Captain P. C. Allen, medical corps officer who performed the autopsy, was asked by A. W. Lawrence, brother of the victim:

"Had his recovery somehow taken place, what would have been his condition mentally?"

"Had he lived," the medical man replied, "he would have been unable to speak, he would have lost his memory and been paralysed."

Lawrence's will bequeathed to his brother an estate of about £200 (about \$1,000), some investments, his little cottage at Moreton, the motorcycle, and some books and private papers.

DOUGLAS CREDIT CAUSE ESPOUSED

Rev. F. W. McKinnon Outlines Economic Proposal for Solution of Present Depression

Painting a picture of a world suffering from starvation and need of supplies amid great abundance, Rev. F. W. McKinnon expounded the cause of Douglas Social Credit as a solution to the problem at a meeting of the Douglas Social Credit Group last night.

There was no need for poverty in a world of plenty, he said, and there was no problem so great that it could not be solved if all would concentrate their minds to finding a solution to that problem.

He believed that Douglas Social Credit offered the right solution to the present economic situation, and outlined it briefly as follows: Nationalization of currency and credit; establishment of a just price to prevent inflation or deflation, and the payment of national dividends to all Canadian citizens.

The dividends would be returned to the people on the basis of production of industry, so that the employee would not only earn his wage, but share in the profits of the country.

At the close of the meeting questions were asked and an enjoyable exchange of views took place.

SINCE its opening in 1889, the old Quadra Street Cemetery, now a restful park with shady trees, has been the last resting place of many of the pioneers of Victoria. Vancouver Island and British Columbia. The original cemetery was located on the corner of Douglas and Johnson Streets a short time after Victoria was founded by Chief Factor James Douglas in 1843.

It is interesting to scan the tombstones in the rear of the park and recognize names of those who so nobly contributed their share to building up the present-day British

11. Germany is ready to limit the culture of battleship guns. She is ready to sign a convention limiting submarines and even suppressing them entirely.

12. The Reich is convinced all present efforts to displace international tension will fail unless control of public opinion through press, cinema, theatre and radio is effected.

DENOUNCES TREATY

(Copyright, 1935, by the Associated Press)
BERLIN, May 21.—Adolf Hitler told the former Allies tonight that Germany would abide by all but the military sections of the Versailles Treaty and would limit armaments with them, even to the scrapping of submarines. In an impassioned address to the specially-assembled Reichstag, Hitler denounced the Versailles Treaty as responsible for Europe's current arguable state.

"Germany has no intention of arming to the skies," he declared, assuring an uneasy world that he wants "quiet and peace."

Der Reichsfuehrer spoke in the Reich Opera House, with 600 brown and black-shirted deputies and a group of ambassadors busily taking notes before him. His words were broadcast throughout Germany and much of Europe.

ALTERATION OF BOUNDARIES
Along with his offer to ban German rearmament at a level to be decided, Hitler again solemnly promised that Germany would not unilaterally alter boundaries fixed by the Treaty of Versailles. This was his only reference to Germany's former colonies.

The Reich, he said, was ready to sign a treaty limiting the size and calibre of naval cannon and submarines. The Fuehrer added that a navy 35 per cent the size of Great Britain's was all Germany would ask.

He scathingly denounced other powers for violating the Peace Treaty's arms limitations, thus forcing the Reich to rearm.

Hitler was thunderously cheered as he pronounced his eagerly-awaited words on foreign policy.

"If Germany of today favors peace," he said, "it favors it neither out of weakness nor cowardice. We defy every war for the subjugation of foreign powers."

"Germany of today is immersed in the tremendous work of repairing its domestic damages. None of our subjects of a factual nature will be completed before ten or twenty years. None of our tasks of an ideal nature can find its fulfillment before fifty or even 100 years."

"What else could I desire but quiet and peace?"

Declaring the present "veritable mania of collective and co-operative effort—the spiritual property of the American President, Wilson," Hitler said the Versailles Treaty pronounced the death sentence upon "the collective, co-operative efforts of nations."

In that treaty, he declared, "there was put a classification, according to victors and vanquished, in place of equal rights, differentiation between those entitled to rights and those without rights."

EXCEPTS LITHUANIA

Germany, nevertheless, is willing, the Fuehrer told the legislators, to sign non-aggression pacts with all European nations save Lithuania, "not because we want war there, but because we cannot enter into a political agreement with a state which disregards the most primitive laws of human society."

"We are ready, through non-aggression pacts, to heighten that feeling of security from which we also profit."

The Nazi leader refused, however, as he had often refused before, to consider pacts re-enforced through obligations of mutual assistance, "which, from the very point of our philosophy, as well as politically and collectively, are impossible for us."

FRANCO-SOVIET ALLIANCE

Attacking the "military alliance" between France and Russia as introducing "an element of grave insecurity" into "the only clear and really valuable mutual treaty of security of Europe, namely the Locarno Pact," he said:

"In the conclusion of pacts of as-

representatives of the other side, violated the obligations of the Versailles Treaty to which they had affixed their signatures. For this there was no excuse."

Germany will not put forward any plan for peace, Der Fuehrer declared, because "it is almost purposeless to advance constructive plans if their rejection may be regarded as certain."

"Had my constructive plan of 300,000-man armies been accepted," he said, "many worries today would be less formidable and many burdens lighter."

ARMAMENTS AND WAR

He was bitterly sarcastic in his comment on those who would see in Germany's armaments cause to fear war and in other nations' armaments reason to hope for peace.

"If armaments threaten peace," he declared, "then they do this in the case of all states...."

"It will not do for one group of states to represent their armaments as olive branches of peace but the armaments of others as a scourge of the devil."

"A tank is a tank; a bomb is a bomb."

He summarized Germany's attitude on several problems of the moment thus:

"First, the German Government rejects the Geneva resolution of March 17 'the League of Nations Council's indictment of Germany for rearmament in violation of the Versailles Treaty.'"

"Second, it declared solemnly that the articles of the Versailles Treaty that are not concerned with armament obligations cannot be renounced unilaterally by any power. This applies also to territorial clauses."

BEHIND LOCARNO PACT
"Third, the German Government would scrupulously stand by all treaties that were voluntarily signed; especially would it fulfill all obligations arising from the Locarno Pact...."

"Fourth, the German Government is ready, for the completion of the Locarno Pact, to agree to an air convention."

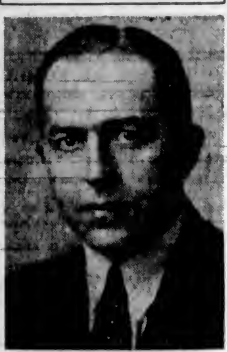

"Fifth, Germany is ready always to limit her armaments as others are ready to limit theirs; in limiting German air armament to a parity with other individual great European nations, it makes it possible at any time to fix an upper limit to which Germany will agree."

"Sixth, the German Government is ready actively to participate in all endeavors to limit armament...."

"Seventh, Germany is ready to accept every limitation which means the elimination of the heaviest type of weapon especially adapted to attack; Germany is ready to agree to every limitation on the calibre and strength of artillery, battle-ships, cruisers and torpedo boats."

CONTRARY TO TREATY
"... What was done not only ran counter to the intentions of President Wilson but also, according to opinion of the most prominent rep-

Sloan will appear in the County Court this morning for trial on charges of breaking and entering the store of Walter Pedder at 2009 Fernwood Road early on Sunday morning, May 12, and of stealing goods therefrom. Their trials will be conducted separately. P. J. Sinnott appears as counsel for Vasherese, while J. B. Clearhue will appear for the accused Sloan.

The two accused were committed for trial in the city police court by Magistrate George Jay a week ago. Yesterday morning they were before Judge J. Charles McIntosh for election and asked for speedy trial before His Honor, without the intervention of a jury.

W. B. Colvin, for the Attorney-General, appeared for the Crown, and agreed to the trials being held this morning on the suggestion of the counsel representing the two accused.

Talk it over with a friend who owns an OLDSMOBILE...

WITH so many cars making so many claims to superiority, you may be finding it difficult to decide on your next automobile. If you have reached this point, why not fall back on the judgment of one you can trust... a friend. Among those you know are men and women who have bought 1935 Oldsmobiles. Talk to them.

Of course, first thing, they'll call your attention to the new Solid Steel "Turret Top" Body by Fisher. They will take it for granted that you are aware of Oldsmobile's quarter-century reputation for dependability and economy. They will explain the advantages of such features as the Concealed Tire and Lug-Compartment... Fisher No-Draft Ventilation... Knee-Action and balanced weight... All-Silent Syncro-Mesh Transmission... Centre Control

Steering... and Hydraulic Brakes. In other words, they will unconsciously prove before your eyes every claim we make for Oldsmobile.

Why not see the new models at our showrooms. Let us explain how easily you may become an Oldsmobile owner through liberal allowance on your present car plus the convenient financing arrangement of GMAC.

MONEY STABILIZATION

Mr. Morgenthau, Secretary of the United States Treasury, believes that the move for the stabilization of currency should be an international one. That is the only way in which it could be accomplished. He has intimated that his country will be willing to confer on the subject, which indicates a change of heart. It was the United States that wrecked a plan for international stabilization at the World Economic Conference of 1933. Since that time circumstances, and particularly the monetary experiences within the United States, have brought that country more into line with world opinion. In the interval, however, other countries have had to pursue their monetary policies in the light of happenings. They are possibly not so keen now as the United States for a policy of stabilization.

Great Britain is persuaded that ultimately there must be reversion to the gold standard. Mr. Neville Chamberlain says, however, that the time is not yet ripe. That fact may well postpone a renewed attempt at international stabilization, and that postponement will be due specifically to the action of the United States in 1933. Moreover, the United States has also postponed the ultimate settlement by its latest silver policy. That is a policy to which many other nations are not prepared to subscribe.

British acquiescence in stabilization is a sine qua non. At present there is the gravest uncertainty over the course of the American dollar. The uncertainty is prospective as well as present, for President Roosevelt has power to devalue the dollar by another 10 per cent. There is, therefore, no assurance that the dollar will remain at its present gold value. Moreover there are constant fluctuations in the price of gold. What an international conference on stabilization might be able to do at this time is to fix the price of gold, for although many countries have abandoned the gold standard for the time being it is the price of that metal that still controls currency. It will probably be a year or two yet before the gold standard is restored, and when it is the one assurance that is certain is that the British pound will be as valuable as it ever was, and perhaps will be of even greater value.

"NORMAL TRADE RELATIONS"

The Buffalo News says "that Canada will never recover to any marked degree until it resumes normal trade relations with the United States." It is conceivable that it means by "normal trade relations" the conditions which obtained prior to the Ottawa Agreements, when the adverse balance against this country was far greater than it is today. The Buffalo News wants American exporters to be able to exploit this country to their hearts' content. That is, obviously, its idea of normal relations, and it uses that expression to show its hostility to the Ottawa Agreements, especially that between Canada and the United Kingdom.

There is still a very heavy adverse trade balance in the fiscal relations between this country and the United States. All conversations about a reciprocity pact between the two countries do not consider this factor. Under reciprocity the glaring inequality would be maintained, perhaps emphasized. In the last fiscal year Canada's imports from the United States increased 27 per cent over those of 1933-1934. In the same period her exports increased by only 15 per cent. The relation with the United Kingdom is quite different. In the last fiscal year Canada's imports from the United Kingdom were valued at \$112,000,000, whereas her exports amounted to \$274,000,000. Canada has a very favorable trade balance in this respect.

There is no question whatever of the value of the Ottawa Agreements and it is cumulative value. The soundness of the present Government's trade policy cannot be denied. Canada tried for long enough to effect a fair exchange of commodities with the United States and failed because of the latter country's tariff policies. She then turned to the British Empire and by agreements greatly expanded her Imperial trade. That is the foundation on which the country intends to go on building. That is the condition that The Buffalo News regards as a barrier against "normal trade relations" with the United States.

UNDERMINING DEMOCRACY

Father Coughlin, the proponent of the National Union for Social Justice in the United States, is reputed to have 5,000,000 adherents. His is not, he claims, a political party. It exists to coerce the existing parties, and coercion is a new word in democracy. The character of Father Coughlin's campaign is explained in his attitude towards the war veterans Bonus Bill. He has asked his followers to telegraph to Washington demanding support for the Patman legislation. The consequence is that a flood of telegrams to the White House, to the Senators and to the Representatives has been pouring into Washington. As well, the American capital is overrun with advocates of the legislation.

Father Coughlin's campaign has been conducted in the main by radio. It is a creation of the microphone. It is indubitably a campaign of coercion, of actual blackmail in some cases, because there is the instance of Father Coughlin saying of Senator Bulkeley of Ohio, who opposed the Patman Bill, that "If the Senator for Ohio does not see fit to alter his judgment, then, Senator Bulkeley's political career is at an end." Thus it seems that the Coughlin Party is engaging in stampeding and dragging and is set upon the task of engineering public opinion on whatever subject engages its attention. This political idea is not new. It prevails in countries where dicta-

torships have a vogue, but hitherto it has been largely unknown where democratic government exists.

Possibly Father Coughlin is unaware of the responsibility of elected representatives, or else considers that his conception is better than that which has hitherto been regarded as essential to the proper conduct of representative government. That conduct was perhaps best explained in a memorable pronouncement by Edmund Burke to the electors of Bristol when he was seeking their votes. He then said: "To deliver an opinion is the right of all men; that of constituents is a weighty and respectable opinion, which a representative ought always to rejoice to hear; and which he ought always most seriously to consider. But authoritative instructions; mandates issued, which the member is bound blindly and implicitly to obey, to vote, and to argue for, though contrary to the clearest conviction of his judgment and conscience, these are things utterly unknown to the laws of this land, and which arise from a fundamental mistake of the whole order and tenor of our constitution."

FRENCH POLITICS

No Premier has been so strongly entrenched in France for some years as M. Flaminiau appears to be. His standing is confirmed by the results of the recent municipal elections, which were held on strictly political lines. His supporters regard the returns as evidence of stability in administration and as a hopeful augury of the general elections to be held next year. It is significant that rural France in the municipal elections stood staunchly against the challenge of the extremists. It is the rural vote that counts in France. It is conceivable that developments in Germany are bringing about a greater solidarity in the French outlook. Radicalism everywhere seems to thrive when there are no external complications. When a country is in any sense regarded as in danger there is a closing up of the ranks. It is a matter of common knowledge that radicalism is looked upon with suspicion when a country envisages foreign enemies. Radicals of the extreme variety are seldom if ever patriots. The rearming of Germany is giving France political stability. Its first preoccupation now is the assurance of a Government that will give the country security.

There is ample money in the country available for sound investment. This was illustrated by the manner in which the latest Dominion loan of \$60,000,000 was subscribed in less than a day. The interest guaranteed is very low, being 2.57 per cent on the eight-year bonds and 3.01 per cent on the twenty-year bonds. The policy of the Government in steadily reducing interest rates is at least effective so far as gilt-edged securities are concerned. Evidently the people regard that policy as sound.

WEATHERS

This is the weather the cuckoo likes,
 And so do I;
 When shofers betumble the chestnut spikes,
 And nestlings fly;
 And the little brown nightingale bills his best,
 And they sit outside at "The Travelers' Rest,"
 And maids come forth sprig-muslin dressed,
 And citizens dream of south and west,
 And so do I.

This is the weather the shepherd shuns,
 And so do I;
 When beeches drip in browns and duns,
 And thrush, and ply,
 And hill-hid tides throbb, three and three,
 And meadow rivulets overflow,
 And drops on gate-bars hang in a row,
 And rooks in flocks homeward go,
 And so do I.

Note and Comment

C. E. R. D.

Politics is the first business of men, the school to mediocrity, to the greatest ambition, to the greatest success, to the greatest failure, to the greatest ruin, to the greatest glory, to the greatest shame, to the greatest death.

This morning we find ourselves in the position described as between the devil and the deep sea, or in a position similar to that of the old man in one of Esop's fables. The old man tried to please everybody, pleased nobody, and lost his property into the bargain. The only satisfaction we have left is that if we cannot please anybody we cannot lose much property. So perhaps we are metaphorically between the devil and the deep sea. The situation is this, as a former newspaper colleague used to say, we have been abjured to refrain from discussing politics, because whatever politics may have been it is no longer the science of government, it is a jumble of politics and religion. Look at what has happened in Vancouver. There actually has been a tumult and a riot in one of the churches over in that too politically conscious city because politics had driven religion out of the pulpit.

If we were completely as a theologian there might be some chance of escape from the position in which we have been placed by the demands of some readers, but incompetence in that respect restricts the field of our operations. Religion may still have a stronghold in some of the pulpits, but politics is on the air. It permeates the atmosphere and everything. Parliament is again in session at Ottawa, and we shall hear of nothing but politics for six or eight months. Sometimes we think, if we may so think without being accused of presumption, that the position of the Prime Minister is of near kinship to our position.

The physical adviser of Mr. Bennett has told him that he should have nothing more to do with politics if he finds out that his strength is not equal to the task. If we had a spiritual adviser, the probability is that he would instruct us to have nothing more to do with politics if any value is to be attached to our immortal soul (if any). The object to relief and salvation is that both of us are the victims of circumstances and are chained to the circumstances. Politics is our allotted job, and we must see the thing through. But the Prime Minister has the advantage. There is no material reason for him sticking to his job; there is only the patriotic reason that he wants to do the best he can for his country, to finish the work to which he has set his hand.

Whatever critics may think of politics, there is no doubt that under prevailing conditions there is a crisis in the affairs of Canada. As a result of this crisis we do not care a button who shall be elected to conduct the administration of our great estate, so long as the man at the head of the Government is an individual who can be trusted to administer his trust in the interests of a majority of the people not only of Canada, but of the whole of the British Dominions. All persons who take an interest in public affairs have read about the Empire Trade Agreements and have been told about what those agreements have accomplished for Canada and for the Empire. From internal and external sources Imperial Preferential Trade is being assailed.

Rt. Hon. William Lyon Mackenzie King has declared that the trade agreements would be annulled if he were in power, although he somewhat modified his original announcement when confronted with the facts bearing on the growth of the Empire compared with the diminution in the trade of practically all other nations. A Japanese statesman has declared that his Government is going to launch an attack on the Imperial trade agreements because there is a great gap in the balance of trade between the two countries bordering on the Pacific Ocean. The Government of the United States is advocating reciprocity in trade with Canada because the agreements have diverted trade from the United States to Canada.

The position of the United States in this matter has been expressed in an editorial published in a Buffalo newspaper. Buffalo is an important commercial centre on the border and in the past has had

large dealings with Canada. The Toronto Globe, a Liberal paper which always has supported the trade agreements notwithstanding its politics, thus comments on the situation:

"When The Buffalo News comments that 'Canada never will recover to any marked degree until it resumes normal trade relations with the United States,' it is an invitation to consider the subject. But what are normal trade relations with the United States, and how are they to be brought about? At the present time the Dominion is paying for imports from the United States with the proceeds of exports to the United Kingdom. This, indeed, has been the method of obtaining the necessary funds ever since Washington started raising the barriers against us. The result is what The Globe calls 'the trade barrier of the Ottawa agreements.'"

The Ottawa agreements may have become something of a barrier to one-way trade with the United States, but they have increased two-way trade with the United Kingdom. And it has become a settled conviction in this country that we should buy from those who buy from us. We have found the British market dependable when that across the border failed, and we would be foolish to throw it over.

If anything, we are foolish in not being better patrons to our best customer. During the twelve months ending with March we spent more than \$300,000,000 in the United States, and less than \$112,000,000 in the United Kingdom. The latter spent \$274,000,000 with us, and the former \$224,000,000. As a matter of fact, conditions should be improved in both cases and both ways. But we are still waiting to learn what "normal trade relations with the United States" means.

More Truth Than Fiction—

While the Weasel is back again. We missed him for a week and now he tells us he has been 'across to Vancouver, where their relief fellers has been getting mixed up with a lot of stuff in a museum.' Will says he has the low-down on the game over there. "If them chaps would a-quilt their flitin and not listen so much to them fundamentalists and get rid of them communists, they'd get the game of George Vancouver's regulated hours of work in which nothing may be done. Eight hours of nothing, however, will still be nothing, a product one can neither eat, wear, use, save, nor give away.—S. G.

No Matter How You Slice It—

Simultaneously with the era that is inventing new payroll services, health and unemployment taxes, while rates already levied are not being collected, comes the man who wants to be paid well for doing nothing as so much per day. Presently there may be a minimum wage for doing nothing and the regulated hours of work in which nothing may be done. Eight hours of nothing, however, will still be nothing, a product one can neither eat, wear, use, save, nor give away.—S. G.

Age Goes Before Beauty

They may accuse the youth of all kinds of things these days, but the older folks are not without faults. On a crowded street the other day it was the younger men who offered their seats to ladies, and it was the older men who pushed their way to the front to get out first, notwithstanding the fact that ladies, both young and old, were waiting to disembark. The youths politely stood aside until the ladies were off the car.—W. J. H.

Couldn't Flee From That Flea

"Big fleas have little fleas upon their backs to bite 'em; little fleas have lesser fleas." But when the audacious little two-pounder attacked the big St. Bernard at the dog show on Saturday night, the great docile creature must have thought that surely another form of plague had been sent to try his long-suffering patience.—H. C. M.

Tanning Their Hides

At Weil's Beach Sunday afternoon two young fellows, both well known in local football circles, stretched lazily on the sands in their swimming trunks, hoping Mother Nature would give them their first "tan" of the year. She crossed the boys, however, for in the evening they both had beautiful sunburns, and so, therefore, the scene had switched from a beach to a couch where they were being looked after with that old sunburn solution, "onions and sour milk." This is supposed to be a great cure, and I hope it had some relief for the boys, for Old Sol shows little leniency on human flesh when he is out in his glory.—J. D.

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of May 22, 1885)

Seriously injured—Bellevue, California, and Victoria pioneer, met with a serious accident at his residence, Friday. The old gentleman had retired to his room for the night, when, remembering that he had left a book downstairs, he proceeded to the head of the stairs, and, missing his footing, fell headlong down the flight of thirty steps. He was picked up in an insensible condition and carried to his room, where he lay in an unconscious state for several days. The doctors, who were immediately called, are as yet uncertain as to the extent of injury sustained, but state his case to be very serious. Bellevue is the oldest English resident in San Francisco, and is widely known and respected. He is a member of the Cosmos Club and Geographical Society, to the members of both of which he has been a long time. He was also a prominent real estate operator in Victoria from 1885 to 1886, and a brother of ex-Mayor Lumley Franklin, who died some years ago at San Francisco.

Island Railway Notes—Work is progressing favorably on the bridge at Chaco River. The bridge is being constructed by the Victoria and Nanaimo Railway Company. The bridge is the longest in the province, and is a fine example of modern engineering. It is expected to be completed in a few weeks, and will greatly improve the railway service between Victoria and Nanaimo.

SOCIAL CREDIT LITERATURE

Sir,—Current discussion of Douglas's Social Credit in your columns has brought so many inquiries about books that I am asking you to take some of the load and help me provide this information for your readers. Your advertisers might also appreciate an active list to obviate the "dead" stock problem with which bookshelves are constantly confronted.

Maurice Colbourne's "Economic Nationalism," published by Figurehead, London, is now a non-fiction best seller in England and it is in its fourth large printing.

C. Marshall Hattley's "This Age of Plenty," now in its fifth printing, has always been a most popular book on the new economics. It is published by Sir Isaac Pitman, London.

The Douglas Manual, compiled by Philip Malret from the writings of Major Douglas, is the authoritative volume, but should follow a reading of one or other of the above. It is published in Canada by Dent, Toronto.

Stanley Knott, London, has a popular list of pamphlets by the Dean of Canterbury, Major Douglas, Storm Jameson, the novelist; the Earl of Tankerville, the Marquis of Tavistock and others.

MAY QUEEN CONTEST

Sir,—Kindly grant space to say congratulations to those who won in our May Queen contest. To those who lost I wish the best of luck. To Miss Patricia Petherbridge, in whose campaign I had the pleasure of assisting, hearty congratulations are due on so magnificent a vote, which was owing to her pleasing personality and excellent organizational ability.

Anyone who ever sold votes for May Queen candidates will understand it entails no small amount of real work to sell 40,000 votes. Here I might mention no money was raised or donated to buy votes for Miss Petherbridge, therefore great credit is due charming "Pat" for pulling up so handsome a score.

"ECONOMIC GROWTH"

Sir,—Respecting "Economic Growth," appearing in your correspondence columns May 19, please permit me to correct a typographical error made by your printer. My equation should read: The growth factor, and the time factor, as being an exponential, of the base of natural logarithms. You will appreciate the importance of this correction and earn my thanks for publishing this very necessary correction.

VANCOUVER'S GRAVE

Sir,—I read with interest the good work being carried out by the Native Sons of Vancouver in looking after the grave of George Vancouver. Twenty-two years ago I had written to the vicar of St. Peter's Church to have the grave put in order, and saying the Lady Douglas Chapter, I.O.D.E., would bear all expenses. A photo, sent after, can be seen in the Archives. He died at the old Star and Garter Inn, Richmond Hill, Surrey, May 10, 1798. M. LEIGHTON MCKIMICK,

THE THRONE OF DAVID

Sir,—I must thank Mr. Richards for his kind invitation to attend the meeting of the Middleton Guild to "state my case." I will very gladly do so. I do not think, however, that this proceeding is quite fair to your readers. My "case," so far as it went, was stated clearly in these columns, and if Mr. Richards has an answer I think it should appear in the same place. With regard to Mr. Blackaller's inability to see what argument I deduce from the genealogy in Matthew, might I say that he himself has expressed it very neatly in the phrase "when tracing one's genealogy one does not do so through one's uncle." Precisely so. British Israelites are the only people I know who ever attempt to do such a thing. Assuming that all the evidence they present as proof of the King's descent from Zedekiah is correct, it only takes us back to an uncle, not the legitimate king.

I quite believe that David's throne is guaranteed forever, but this cannot mean that it was to remain in existence during all the time of Israel's dispersion. In fact the Bible explicitly states the opposite. There are two passages which every British-Israelite should carefully ponder over. Hosea, iii, 4: "The children of Israel shall abide many days without a king, and without a prince, and without a sacrifice," etc. Ezekiel xli, 25-27: "And thou, profane, wicked prince of Israel (Zedekiah), thus saith the Lord God: Remove the diadem, take off the crown; I will overturn, overturn, overturn it; and it shall be no more until he come whose right it is, and I will give it him."

Mr. Blackaller recognizes, as I do, that he is wrong right in the Lord Jesus, and the fact that He has not yet come is all the proof we need to know that the throne is not set up. In reply to Mr. Coley, I might say that I am quite familiar with the Scripture he quotes. No "man" or "Jehochin's seed, ever has or will occupy the throne of David. It is reserved for the Son of God. But Mr. Coley has not the least Scriptural authority for saying that the inheritance passed to Zedekiah and his descendants. The passage quoted above, in which it is declared the kingdom shall be "no more" until a king, and without a prince, and without a sacrifice," etc. Ezekiel xli, 25-27: "And thou, profane, wicked prince of Israel (Zedekiah), thus saith the Lord God: Remove the diadem, take off the crown; I will overturn, overturn, overturn it; and it shall be no more until he come whose right it is, and I will give it him."

A BIT OF POKER
 It is very difficult to bluff Grade A opponents out of a vulnerable game. My wife and I, however, were lucky enough to do so in the early stages of our match against Mr. and Mrs. Sims. They were vulnerable and we were not instead of losing the rubber right then and there, we actually bid and made a part-score. The perfect par result on the hand is a set of two tricks as a sacrifice at five-bid in our suit, but that would have meant a loss of 300 points for us. Actually, we got a plus score.

NEW QUALICUM CHURCH OPENED

Bishop MacDonald Officiates—Nanaimo Girls' Choir Leads Singing

QUALICUM BEACH, May 21.—On Sunday morning the new Catholic Church of the Little Flower at Qualicum Beach was formally opened by His Excellency John Hugh MacDonald, Bishop of Victoria. A large congregation, coming from points near and far on the Island gathered outside the church before the 11 o'clock Mass to witness the formal blessing.

Bishop MacDonald, assisted by Father Gaudette, of St. Andrew's Cathedral, and Father Kennedy, the priest in charge, knelt on the steps for the opening prayers and then made the formal encircling of the building, blessing it as he went. The doors were then opened and the congregation entered. After the blessing the bishop celebrated a low Mass, assisted by Father Gaudette and Father Kennedy.

The singing was led by a girls' choir from St. Ann's Convent, Nanaimo, under the direction of their superior, Sister Hilda. After Mass Bishop MacDonald preached an inspiring sermon in which he dealt with the necessity of public worship and the importance of the church building in the religious life of the people.

In concluding, the bishop emphasized the fact that, while Catholic bishops and priests were not in the habit of extending special invitations to non-Catholics to attend their services, nevertheless, they are always welcome and should feel free to come to any service at any time. He also assured them that they could feel certain that they would never hear anything that might offend their sensibilities.

In the afternoon Father Smith, of Alberni, gave Benediction. Members of the Sisters of Charity from Ladysmith and the Sisters from St. Joseph's Hospital, Comox, were the choirists.

"Faust" Well Sung by Capable Local Cast And Visiting Artist

Victoria Philharmonic Society Received With Acclaim in Second Grand Opera Performance Under Direction of Basil Horsfall

THE movingly-beautiful concert performance of Gounod's best-known opera, "Faust," given by the Victoria Philharmonic Society last night at the Empress Hotel under the experienced direction of Basil Horsfall, inspired the confidence that this city may yet become as famous as some European cities have for their operatic productions.

The audience was clamorous in its applause, over and over again the performance being held up for measurable moments to allow the clapping to subside before the singers and orchestra resumed. The tribute was a perfectly spontaneous expression of the gripping appeal which the work made, so that one can imagine that in the more elaborate setting of a furnished stage, and with costumed performers acting as well as singing, the performance would be acclaimed far and wide.

A few months ago this remarkable little organization, formed for the sole purpose of producing grand opera in concert form, in English, made its debut in "Il Trovatore." Surprisingly good as that was, "Faust," it is generally conceded, was still better, had greater cohesion, unity, balance of ensemble work, and an all-round finer polish.

BEAUTIFUL MUSIC
Although more than seventy-five years have elapsed since the first production of this Gounod masterpiece, the music is as popular as ever, and far more familiar. For those who love it chiefly for its music, the concertized version of the opera has the advantage that there is nothing to distract one's attention from the beauty of the arias and harmonies, and it is a real tribute to the vocal and orchestral end of last night's performance that the audience was frequently profoundly moved by both.

Again Basil Horsfall showed splendid authority, experience, and resource in the directing; again the casting of principals was admirably done; again amazing results were achieved with a comparatively small chorus and orchestra.

The principals singing throughout compelled the greatest admiration. With the exception of the principal soprano, Miss Margaret Benson, who took the part of the ill-fated Marguerite, all the soloists in connection with the last performance. Miss Benson proved a charming young artist, and sang with captivating simplicity, yet sincerity of style that suited the role well, her voice being particularly pretty in the upper register, and her singing throughout being musically secure and completely confident.

VOTE AGAINST CLOSED SCHOOL

Saanichton Ratepayers Are Opposed to Shutting Institution

Parents and ratepayers interested last night informed representatives of the Saanichton School Board they were decidedly against closing the Saanichton School, a measure introduced as an economy move at the last board session.

Trustees Walter P. Jeune and Nathaniel Gray were present at a meeting in the school to hear views of the parents and ratepayers concerned. All but one of the interested parents were present.

Trustee Jeune acted as board spokesman and pointed out that in the event of the board closing the school, the pupils now attending Saanichton would be sent to Keating or West Saanich schools. None of the pupils affected by the measure would be higher than Grade IV, the parents were informed.

At the last board session it was pointed out that the cost of operating the school was \$15,425.22 in 1934, and as only twelve pupils were expected to be in attendance at Saanichton School after the end of the term, the average cost per pupil would be \$128.

The trustees will convey the wishes of the parents and ratepayers to the board at its next meeting. The board has power to close the school if they deem such action necessary, according to the School Act.

introduced a "hands off business" policy, big and small businesses would take heart and would go ahead with such steady steps as to soon bring about prosperous times.

These were the statements made by Fred Kohnle, Dayton, Ohio, president of the Monarch Marking System Company, during an interview at the Empress Hotel yesterday. Mr. Kohnle's company has its main factory in Dayton and branches in Los Angeles and Toronto. He reported his business in Canada somewhat improved over last year, and said he looked for good returns from his Toronto plant from now on.

Despite his forthright statements of the disheartening situation, as he sees it in the United States, Mr. Kohnle has no doubt that his country will come through alright. His first experience with depression was in 1873, he said, and he was fully convinced that hard times and prosperous periods came in cycles, and each brought its lesson.

THREE KILLED AT SPEEDWAY

Race Drivers Ride to Death In Qualifying Runs at Indianapolis

INDIANAPOLIS, May 21 (AP).—Three men rode to their deaths at the Indianapolis Motor Speedway today while preparing for the 500-mile automobile race, May 30.
W. H. (Stubby) Stubblefield, twenty-seven, veteran Los Angeles pilot, leaped the wall on the south-west turn late today while nearing completion of his twenty-five-mile qualifying run and was injured fatally. Leo Whittaker, a neighbor of Stubblefield, riding with him as mechanic, died with the little driver who had finished every 500-mile race he started.

IS KILLED INSTANTLY

Big Johnny Hannon, who came out of Norristown, Pa., as the Eastern dirt track champion to try his fortune on the rough brick course here, was killed earlier in the run when he lost control of his mount in the third turn. He was dead when picked up. Oscar Reeves, Indianapolis, his riding mechanic, was taken to a hospital, where he was said to be in serious condition tonight.

It was one of the worst days for fatalities in the history of the track, which has been operating since 1896, and brought the total number of deaths at the Speedway in that time to thirty. Twenty-six of the victims have been drivers and mechanics; four were spectators.

offering any resistance to the Japanese.

ASKED FOR PERMISSION

Japan has been asked repeatedly but vainly for permission to increase this police front. These sources say in order to cope with hand-to-hand streaming in from the Southeast.

Press reports to Tientsin said 200 Japanese troops traveling in motor trucks had crossed the Great Wall and reached Tainan in the demilitarized area, chasing "Chinese residents who opposed the Japanese in Southern Jehol." Many Japanese planes were assembled at the Malayan Great Wall Pass, these reports said.

Interference by the Dominion without a request from the Province, he said, would be illegal and a compromising of the Government's position just as the alleged illegal acts of some of the strikers was a compromising of their position.

Mr. George told how the committee had been working for five months to make the three-day celebration here an outstanding success. Women very rarely speak of this disfigurement, but secretly and anxiously try every promised cure they see advertised, only to find to their sorrow that the growth is but aggravated by their use. FINE CONCERT MUCH ENJOYED

Meistersingers and Assistant Artists Entertain at St. Mary's Hall

A programme of outstanding interest was given last evening at St. Mary's Hall, Oak Bay, under the auspices of the W.A. The hall was filled to capacity and the entire programme made a great appeal to the audience, each member receiving enthusiastic applause. Rev. Canon Munna acted as chairman, announcing each item.

The programme opened with a recitation by little Miss Eileen Chester, whose recital of the story of "Little Red Riding Hood" and her adventures was exceptionally clever, and she followed this with a charmingly acted monologue with musical accompaniment. Miss F. Hughes played two xylophone solos which delighted the audience and her accompaniments were played by Miss P. Cockell. Miss Enid Cole

recited, "An Old Sweetheart of Mine" (James Whitcomb Riley), a charming "fragment" of a Swedish folk tale, and the dramatic "Cattle Thief," in which she wore Indian costume.

MEISTERSINGERS CHORUS

Members of the Meistersingers Chorus took part in the programme, the glee party singing "Lo, How a Rose" and "O Isle and O Isle," as well as "The Pilot" and "O Promise Me," in all of which they were enthusiastically applauded. Mr. F. Irving sang as a tenor solo, "Sweet Repose" (Schubert). Mr. L. Jones sang "Vagabond," also a tenor solo, and with Mr. Pierre Timp sang the duet, "In This Solemn Hour." Mr. Pierre Timp, always a favorite with local audiences, gave great pleasure with his baritone solo, "Victory" (Sander). Mrs. F. G. Aldous sang very beautifully, "Quiet" (Sander), giving as an encore, "O Lovely Night." Miss Grace Allen played the accompaniments.

CLEVER SKETCH

The last number of the programme was a sketch, "Mary's Dismissal," in which members of the Evening Branch of the W.A. took part. The quick action, witty dialogue and amusing situations caused great merriment, and each member of the cast was exceptionally well

SEVEN CANADIANS LEFT IN BRITISH GOLF MEET

Phyllis Dewar Puts New Aquatic Record In Canadian Books

Queen of Feminine Swimmers From Vancouver Eclipses Standard for Women's 440-Yard Freestyle by Thirteen Seconds—Two Other Marks Shattered at Winnipeg Meet

WINNIPEG, May 21 (CP).—One women's record and two boys' records were smashed in the backwash left by the churning feet of Dominion swimmers at the Canadian Amateur Swimming Association swimming and diving championships opened here tonight.

Phyllis Dewar, transplanted queen of feminine swimmers from Moose Jaw, cracked the existing women's 440 yards freestyle mark wide open twice, beating Irene Pine's old time of 5:45.30 with a 5:32 performance in the final.

Harold Whitlock, of Hamilton, Ontario junior freestyle champion, won the 100 yards Canadian title in 1:51.5, falling to equal the new record he hung up in winning his heat. The old mark was 1:52.5, and Whitlock ploughed through the century exactly two seconds faster. Bruce Dunfield, Toronto, was second to Whitlock in the record-breaking heat, but in the final, Archie Byers, Vancouver, nosed out the Toronto boy for second place.

NEW JUNIOR MARK
Byers established a new record for the 100 yards junior boys' breaststroke of 1:26, two seconds better than the old mark, in winning a three-day duel with Mel Grey and Wally Simmons of Winnipeg, who finished in the order named.

Robert Pirie, of Toronto, showed the way to a large field in winning the 440 yards men's Canadian freestyle championship, finishing by one scant second to equal the Canadian record. This race was a beauty to watch and developed into a battle between three Roberts. Toronto's Robert headed Robert Hamilton, of Winnipeg, to the tape, and Robert Hooper, of Vancouver, in the 440 yards men's relay, finished a few strokes behind the local boy in third place.

University of Minnesota's crack relay team enacted a surprise into the opening night's events by beating a pair of powerful teams from Toronto and Winnipeg in the 440 yards men's relay for the Murray Hannah Trophy. The Minnesotans assumed the lead at the gun, and

despite a spirited challenge by Pirie and Hamilton in the closing stages, the Americans had enough left to stave off the bid to win in 3:48.2-3. Toronto were second and Winnipeg third.

CANADIAN GIRL WINS
Noel Oxenbury, of Vancouver, proved superior to her field in the 100 yards junior girls' Canadian freestyle championship. The Vancouver miss had her sternest battle with Shirley Stewart, of Winnipeg, the pair placing one-two in their heat, and the final. Roberta McDonald won her heat in 1:11.1-5 to Oxenbury's 1:08.3-5, but the Fort William girl forced her rivals to the limit before yielding, coming in a safe third.

Final results follow:
Final, 100 yards junior boys' freestyle, Canadian championship—1, Harold Whitlock, Hamilton Aquatic Club; 2, Archie Byers, Vancouver A.S.C.; 3, Bruce Dunfield, Central Y.M.C.A., Toronto. Time, 1:51.5.
Final, 440 yards men's freestyle, Canadian championship—1, Phyllis Dewar, Vancouver; 2, Mary McConkey, Edmonton; 3, Marion Moffat, Vancouver. Time, 5:32.
Final, 100 yards junior girls' freestyle, Canadian championship—1, Noel Oxenbury, Vancouver; 2, Shirley Stewart, Winnipeg; 3, Roberta McDonald, Fort William. Time, 1:08.3-5.
Final, 100 yards junior girls' backstroke—1, Kathleen Whitehead, Winnipeg; 2, Joyce Irons, Winnipeg. Time, 1:39.
Final, 100 yards junior boys' breaststroke, Canadian championship—1, Archie Byers, Vancouver; 2, Mel Grey, Winnipeg; 3, Wally Simmons, Winnipeg. Time, 1:26 (new Canadian record; old record, 1:28).
400 yards men's relay, Murray Hannah Trophy—1, University of Minnesota; 2, Central Y.M.C.A., Toronto; 3, "Y" Tankers, Winnipeg. Time, 3:48.2-3.

Anita Lizana, the Chilean sensation, made her first appearance on a continental court, teaming with Lili d'Alvarez and losing to Mlle. C. Rosambert and Mlle. I. Neufeld, of France, in the women's doubles, 6-2, 6-3.

The German and Japanese Davis Cup doubles teams won, with Heinrich Henkel and Hans Dember, taking the measure of France's doubles stars, Yvon Petra and Pierre Fauts, 4-6, 6-3, 2-6, 6-3, 7-5, and J. Yamagishi and H. Nishimura, of Japan, beating Henry Berthet and Raymond Rodol, of France, 7-5, 6-3, 6-4, in two second round matches.

Two veteran doubles teams—Vivian McGrath and D. P. Turnbull, of Australia, and Roderick Menzel and Ladislav Hecht, of Czechoslovakia—had tough battles to win second round matches. The Australians squeaked through, 7-9, 6-0, 6-3, 8-10, 7-5, over the Austrians, Adam Bavarowski and George von Metaxa, while the Czech stars took five sets to down Antoine George and Guy Tironi, of France, 12-10, 5-7, 4-6, 6-4, 6-0.

EXPLANATION FOR YESTERDAY'S CARTOON
Chained for Twelve Years—Charles Neufeld, a German merchant residing in Assuan, Egypt, was on a business trip to the Sudan when his guide betrayed him into the hands of desperadoes who were than rebelling against the Anglo-Egyptian Government. The rebels were led by the Khalifa Abdullah, spiritual successor to the promised Mohammedan saviour. Neufeld was immediately put in chains and transported to a prison. Here he spent twelve years, from 1867 to 1889, his shackled legs connected with a very short chain around his neck, which kept him in a permanently doubled-up position. There were no hygienic provisions in this cruel prison, and practically no air or food was provided by the Government for the prisoners. Neufeld was freed by Kitchener's victory over the wild desperadoes on September 2, 1889, recovered his health and recorded his terrible experience in a book.

Former Victorian Wins

R. L. "DICK" MOORE

Former Victorian, who is still a member of the Victoria Golf Club, but now a resident of Vancouver, who is making a bid for the British amateur golf championship at St. Anne's-on-Sea course in England. In his first round, Moore eliminated Hestor Thomson, Scotland, one of the favorites, at the twentieth hole, and yesterday, in the second round, he accounted for A. S. Anderson, Hindhead, 3 and 1. The one-time local shotmaker has twice captured the British Columbia amateur crown, the first being at Oak Bay links eight years ago, and the second in Vancouver last year, when he beat Stan Leonard. Victorians are closely following Moore's play in the Old Country, and are hoping he goes a long way in quest of Lawson Little's title.

Mainland Ball Nine to Oppose Sons of Canada

Uniteds Have Strong Club for Games Here May 24—Victoria Will Bring in Shortstop and Pitcher—Fixtures at 10:30 and 5:30

SECOND berth occupants of the Vancouver Senior League, Uniteds, short Mainland ball nine, will be seen in action here on May 24, when they battle Victoria Sons of Canada, in a twin bill exhibition baseball series at the Royal Athletic Park. The first game will be played at 10:30 o'clock in the morning and the nightcap will commence at 5:30 o'clock.

President Fred Ramsdale announced yesterday evening that the local club has been fortunate in securing the services of a Tacoma shortstop and an Olympia twirler to bolster the Victoria line-up for the fixtures. The move was inaugurated by the Sons of Canada management for the series with the Tokyo Giants and proved popular with the fans.

Tommy James, Tacoma, leading hitter in the Northwest League, and one of the finest shortstops in the loop, will play this position on the Victoria squad in both fixtures. James has been hitting the pill at over .500 in league encounters this season.

FRIEND TO PITCH
For hurling duty the Victoria management has secured the services of Carroll Friend, big right-hander from the Olympic Club of the Timber League. Possessing a burst of speed and a variety of offerings, Friend is expected to make a good showing against the Mainlanders. A former college student, Friend had a tryout with the Oakland Club of the Pacific Coast League this season. He will go to the mound in the morning game.

After handling the Tokyo Giants a 4-0 defeat, the first setback that the Nipponese players suffered at the expense of an amateur club during their tour of the United States and Canada, the Sons of Canada are all primed up to take the measure of the smart Vancouver fixture. The locals have had a number of work-outs since their series with the Japanese players and are shaping up exceptionally well.

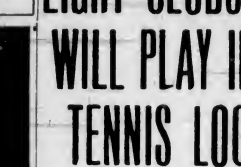

With Friend doing the mound work in the morning fixture, the twirling in the nightcap will rest with Leo Holden, Lloyd Cann and Lloyd Jones. Holden and Cann worked against the Tokyo Giants and heaved good ball. Jones, who has yet to go to the mound, is reported to be in good shape and ready for action.

President Fred Ramsdale announced yesterday that the Victoria club is already booked for exhibition games here every Saturday in June and July, with Tacoma, Spokane, Seattle and Vancouver nines providing the opposition. The genial head of the local club stated that everything possible will be done to give the fans a good brand of ball during the present season.

Local Athletes Will Compete in Meet at Kelowna

OFF to compete in the monster track and field meet at Kelowna on May 24, Coach Archie McKinnon and six members of his Flying "V" track and field club, left Victoria this morning by way of Port Angeles, Athletics making the trip include Joe Addison, Paul Rowe, Bill Dale, "Chuck" Cunningham, Alec Gaunt and Jack Ferguson.

EIGHT CLUBS WILL PLAY IN TENNIS LOOP

Home matches at Victoria, C.P.R., Langford and Centennial will commence at 2 o'clock, and at Hillcrest at 10 o'clock, with the exception of August 24, when the fixture will commence at 2 o'clock.

Dizzy Led From Field Under Police Escort After Paul Had Been Accused of Using "Bean" Ball — Coach and Catcher Ousted — Giants and Dodgers Win Games

NATIONAL LEAGUE

ST. LOUIS, May 21 (AP).—Dizzy Dean was led from the field under police escort today after a near riot in the fifth inning interrupted Philadelphia's 7-6 conquest of the world champion Cardinals. Ill feeling expressed in jibes by the rival players during the early innings flared into action in the fourth when Coach Hans Loeber accused Paul Dean, on the mound for the Cardinals, of throwing a bean ball at Lou Chiozza. Paul dropped his glove and squared off. Dizzy, anxious to be his brother's keeper, rushed to the scene from the bench, but the umpires interfered and there were no hostilities.

GIANTS RALLY TO WIN

PITTSBURGH, May 21 (AP).—After being held scoreless for five innings by Waite Hoyt, the New York Giants opened up with a slashing attack that netted seven runs in the sixth and then went on to whip the Pittsburgh Pirates, 9-4, and square the series at one game each today.

SWARM ON FIELD

Dizzy again leaped out to back up "Big Paul," and players from both dugouts swarmed on the field. A few belligerent punches were traded, but the threatened free-for-all subsided after Dizzy, held by two teammates during the brief fracas, was led from the diamond by police. A crowd of 2,500 cheered his departure.

The dizzo one, anxious to battle Todd, had a feud with the Philadelphia player since the Texas League days, when Todd knocked him down for alleged use of the bean ball. In the sixth inning Loeber also was sent from the field after a boisterous protest that Spud Davis, Cardinal backstop, was stepping out of the box too quickly. Catcher

Bill Delaney was chased off the Cardinal bench during the first by Umpire Pfirman for making "unpleasant remarks." R. H. E. Philadelphia 7 14 0 St. Louis 6 13 2 Batteries—Jorgens, Prime, Johnson and J. Wilson, Todd; P. Dean, Kleinke and Davis.

AMERICAN LEAGUE BOSTON, May 21 (AP).—Manager Joe Cronin dropped himself to seventh place in the Boston Red Sox batting order today and paved the way for a 7-2 victory over the Cleveland Indians by belting out a triple with two on base on his first trip to the plate.

Cronin's triple off Willis Hudlin, the first of the three Cleveland hurlers in the action, scored Rick Ferrell and Carl Reynolds. The Boston manager counted when Lefty Fritz Ostermuller banged out the first of two lousy singles.

Sox Beat Yanks NEW YORK, May 21 (AP).—With Al Simmons and Ray Radcliffe hitting home runs, Ted Lyons, veteran right-hander, turned in his fourth victory of the year for the Chicago White Sox today as the league leaders defeated the New York Yankees, 3-2, to square the series at one all.

Local Heavyweight Kayoes Prairie Fighter in Less Than Round—Carey, Griffin, Parker and Currie-Smith Are Defeated

EDMONTON, Alta., May 21 (CP).—Wild-swinging Gordon Schmalz, Kitchener clout artist, stole the show in the twenty-nine-bout programme of preliminaries in the Canadian boxing championships here tonight, winning two bouts that came close to bringing down the house with the action furnished.

A win came to Edmonton when Alfred Tansey caught the judges' eye in his battle with Robert Miles Parker, of Victoria. It was rather a surprise decision. In the final round Tansey was going along nicely when Parker shot a right to the solar plexus that slipped down, a yell going up from the crowd for a low blow. Tansey took the silent count and got up weakened, just managing to hang on until the bell.

Up against an opponent who looked to be quite a few years older, Young Julius Troll, of Vancouver, put up a game scrap against Ted St. Julien, of Regina, but lost the decision. They fought in the 126-pound class.

Small Gains Are Made by Stocks At Wall Street

NEW YORK, May 21 (AP).—Today's stock market performance reflected a widening of the ripple of buying in industrial and special times, which got under way in the previous session.

While rails and utilities reflected Wall Street's attitude of interest waiting for Washington legislative developments, buying was active in selected groups.

Turnover aggregated 1,130,380 shares. The opinion expressed to stockholders of American Smelting Co. by the chairman, that a further rise in the domestic price of copper could be expected, attracted an active following into the metals group.

Magma Copper advanced 2-1/2 to 34 and St. Joe Lead, more than a point at 193-8. Fractional advances were registered by Anaconda and Kennecott.

Even silver shares were carried for a time, but by closing time most of them were a little lower on the day. Steel stocks were firm.

Canadian issues were fractionally higher. Railroad issues continued to drift lower on the bond market. Soft spots were Chicago & Terre Haute 5's and Erie 4's, which were 1-2 points lower.

The foreign department was steady.

CARDIGAN

ROBERT W. CHAMBERS

CHAPTER XV

From the corner of my eye I could see the card-players, watching me from the window.

There were several houses just beyond me to the left, and at one, evidently a tavern, I perceived Jack Mount loading in the doorway and Samuel seated on the horse block. Still disgruntled with Mount, I would have returned his cheery salute with a sullen nod and not paused at the house.

But he came out into the road, asking what had gone amiss, whereupon I told him he had left me without advice or counsel, and that I had quitted the fort, not caring to be caught there by Butler and his warrant.

"Shame on you, lad, for the thought!" said Mount angrily. "Do you think we do things by halves, Cade and I? The Weasel has been in touch with Butler's men all night, ready to warn you the moment they started for this camp. He's asleep in there now, jerking his huge thumb towards the inn, and I've just returned from seeing Butler well on the trail towards Pittsburg."

Ashamed of my complaint and deeply touched to oppose such a monstrous crime as that which Lord Dunmore contemplates, then I am guilty. If to be a patriot means to resist such men as Dunmore and Butler—if to defend the land of one's birth against the plots of these men makes me an enemy to the King, why—why, then, I ended violently. "I am the King's enemy to the last blood-drop in my body!"

There was a silence. I sat there with clenched fist on the table, teeth set, realizing what I had said, glad that I had said it.

"Lord Dunmore represents the King," said Mount, smiling. "Prove it to me and I am a rebel from this moment!" I cried.

"But Lord Dunmore is only doing his duty," urged Mount. "His Majesty needs allies."

"Do you mean to say that Lord Dunmore is provoking war here at the King's command?" I asked in horror.

The young man by the chimney stood up and bent his pleasant eyes on me.

"I have here," he said, tapping a letter in his hand, "my Lord Dunmore's commission as major-general of militia, and His Majesty's permission to enlist a thousand savages to serve under me in the event of rebellion in these colonies."

I had risen to my feet at the sound of the stranger's voice. Mount, too, had risen, tankard in hand.

"I am further authorized," said the young stranger coolly, "by command of Lord Dunmore, to offer twelve pounds sterling for every rebel scalp taken by these Indian allies of His Most Christian Majesty."

Crash! went Mount's tankard on the table, and, turning to the young

stranger with a bow, "I bring you a new recruit, Colonel Cresap," he said quietly. "Will you administer the oath, sir?"

Thunderstruck, I stared at the silent young man who stood there, grave eyes bent on me.

"Pray be seated, Mr. Cardigan," he said smiling. "I know you have a message for me from Sir William Johnson."

He drew up a chair, motioned Mount and me to be seated, and leaned back, waiting for me to speak.

When I had finished, he began his defence, very modestly and with frankest confession that he had been trapped by Dunmore into a pitfall the existence of which he had never suspected.

"I am today," he said, "the Moses of these people, inasmuch as I have, at Lord Dunmore's command, led them into this promised land. And now for months I have been aware that Dunmore wishes a clash with the Cayugas yonder; but until Sir William Johnson opened my eyes, I have never understood why Lord Dunmore desired war. Why, Jack, it's perfectly plain to me now. We've been tricked. This very commission in my hands here is made out for the purpose of buying my loyalty to Dunmore. Can't you see?"

Cresap flushed faintly and turned to me.

"What can I do, Mr. Cardigan? I have led these people here, but I cannot lead them back. I could not induce a single man to abandon the cabin he has built or the ground he has planted. And where should I lead them? Virginia is over-populated. I have no land to give them except this, granted by the King—granted in spite of his royal oath, now broken to the Cayugas. Were I to counsel the abandonment of this fort and village, Lord Dunmore would arrest me and clap me into Fort Pitt. I can do nothing while a royal governor governs Virginia."

But if the time ever comes when our Boston brothers sound the call to arms, I can lead out of this forest six hundred riflemen whose watchword will be, 'Liberty or Death!'

He had grown pale while speaking; two bright scarlet patches flamed under his cheek bones; he coughed painfully and rested his head on his hand.

"Go to your Cayugas," he said, catching his breath. "Tell them the truth, or as much of the truth as Sir William's wisdom permits. I am here to watch, to watch such agents as Greathouse and young Walter Butler, whom I met on the Pitt trail three hours since. Oh, I understand the situation now, Mr. Cardigan."

After a moment I asked why he had not expelled his friend Greathouse, and he replied that he had, but that Dunmore had sent him back under his special protection.

Cresap rose, holding out his hand to me.

"Shall I administer the oath of fellowship, my friend?" he asked.

"Not yet," I replied, taking his hand.

"When you are ready, Mr. Cardigan," he said simply. "Will you lodge here? That is well; the fort is not safe. And if I mistake not, young Butler will be here tomorrow to search for you. He begged me to have you arrested should you be in my camp."

"I shall be at the Cayuga castle by dawn," I said.

"And after that?" inquired Mount.

"You are not going to leave us, are you, lad?"

"I have my message to deliver to Sir William," I answered earnestly.

"And," I added, "truly I do not believe there is anything on earth that can prevent my delivering my message, nor retard my returning and slaying this frightful enemy of mankind, Walter Butler."

SAYS MANIFESTO NEEDS CLARIFYING

Miss Estelle C. Matheson Offers Constructive Criticism at C.C.F. Meeting

Need for clarifying the C.C.F. manifesto and having it stand for complete abolition of private ownership of all means of production, was stressed by Miss Estelle C. Matheson, Oak Bay, in an address at a meeting, Monday night, in the C.C.F. Hall, Fort Street. Speaking from the same platform, G. F. Hobart, Cedar, called on those present to drop any petty bickerings over non-essentials in the C.C.F. movement and unite.

Only by the complete abolition of private ownership could capitalism be stamped out and the country be operated in the interests of the working class, Miss Matheson maintained. She declared she did not agree with J. S. Woodsworth, leader of the C.C.F. movement, who favors "state ownership of all but certain utilities and ample scope for private ownership and enterprise." The speaker contended the manifesto of the C.C.F. movement, drawn up in Regina, did not stand for complete abolition of private ownership and should be changed.

DEFEAT OWN ENDS

"True socialism stands for complete abolition of private ownership of the means of production," Miss Matheson asserted.

Mr. Hobart showed how in the past the socialist party and groups had defeated their own ends by losing sight of the main issue and splitting over small matters.

"I have no criticism of the C.C.F., but I have for those on the outside who are quibbling over petty details," he said.

Unless all adherents of socialist principles united, and the C.C.F. was the best banner under which that could be done, their power, politically, would be as nothing, the speaker declared.

CHAIR BY CHIPPENDALE

Chippendale—a name that denotes worth

■ The name Chippendale holds a wealth of meaning in the world of furniture because a genuine Chippendale is a masterpiece of its kind.

■ For over 50 years the name Sunlight has stood high among housewives, too, because it means a soap that is guaranteed pure. It is a masterpiece of soap! No other laundry soap bears the stamp "guaranteed pure".

■ Being all pure soap, Sunlight dissolves easily without hard rubbing, forming lots of rich, lasting suds that go to work quickly even in hard water and give you a snowy white, sweet smelling wash. The cleansing action of Sunlight is gentle and protects your garments from injury—keeping them out of the mending basket. Its purity saves your hands from the roughening effects of common laundry soaps, too.

■ Because Sunlight is all-pure soap it is for that reason economical to use. Get a supply of Sunlight—you'll have an easier wash day and a whiter, cleaner wash.
